

# Book, share, monetize

with intelligent  
parking

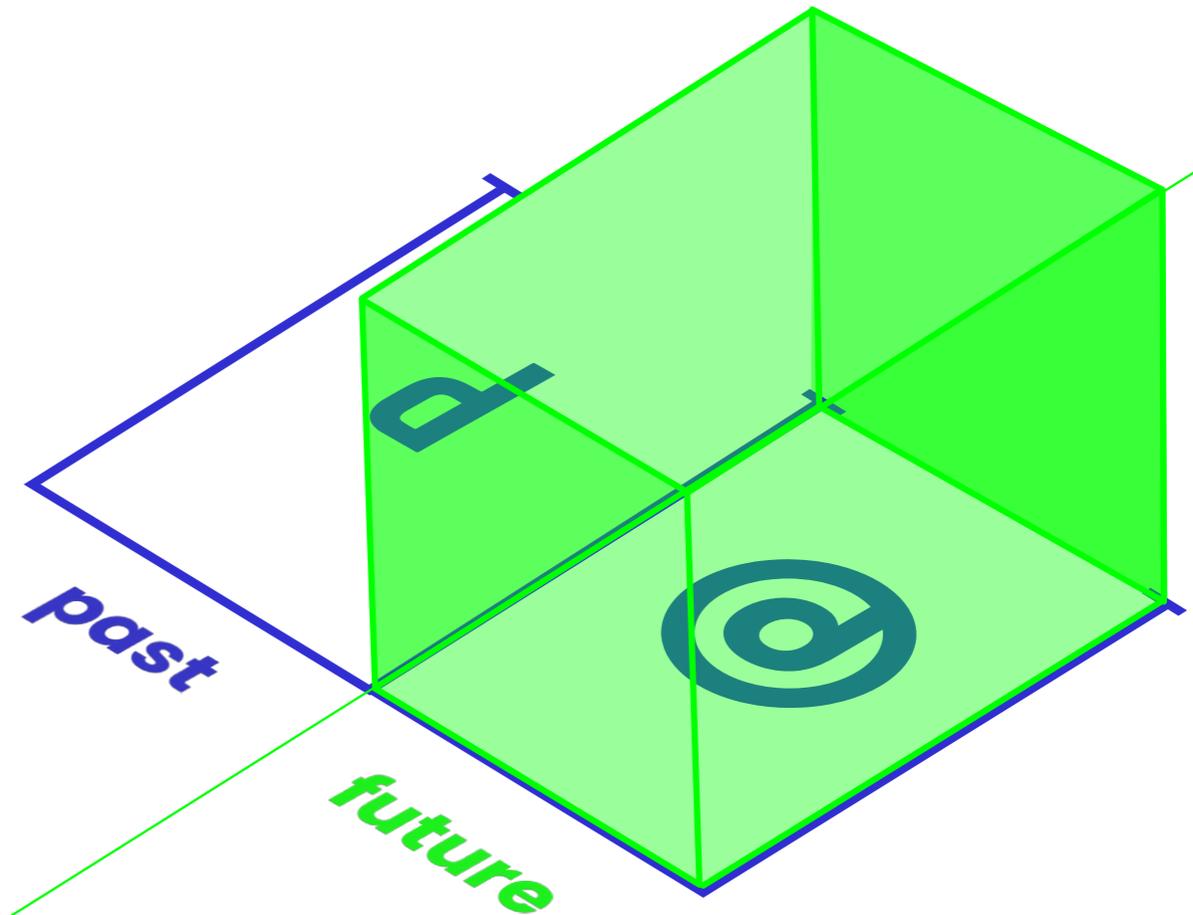

Introducing intelligent parking spaces that residents can dynamically share, benefitting both the environment and community!

Rigid rules and pricing are a thing of the past. You can now make parking more flexible and more profitable. Maximize your spot's potential!

**With ParkingAround!**

What kind of parking do you want?

Monetization

Flexibility

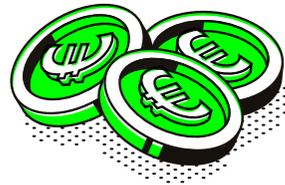

Comfort

Security

**Modern parking by ParkingAround**

# ParkingAround grants you

## Monetization

Rent out your space on your own terms.

## Flexibility

Have as many spaces as you need at any given time.

## Security

Real-time info on your vehicle and space status

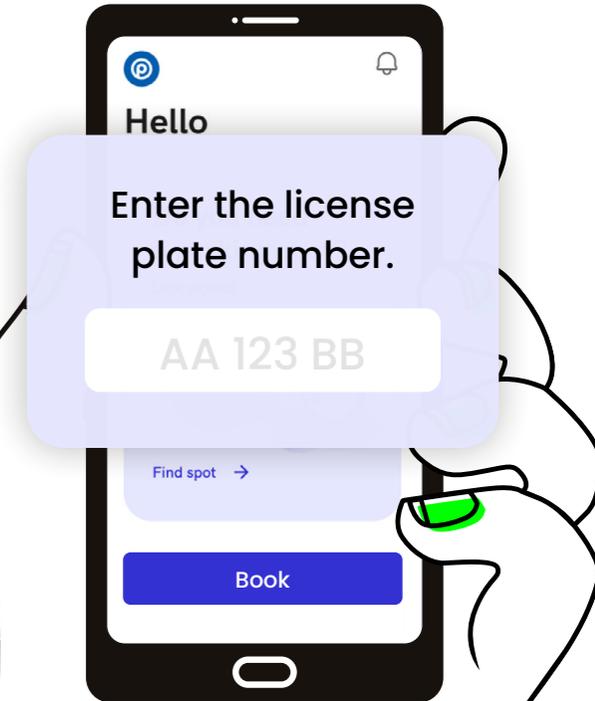

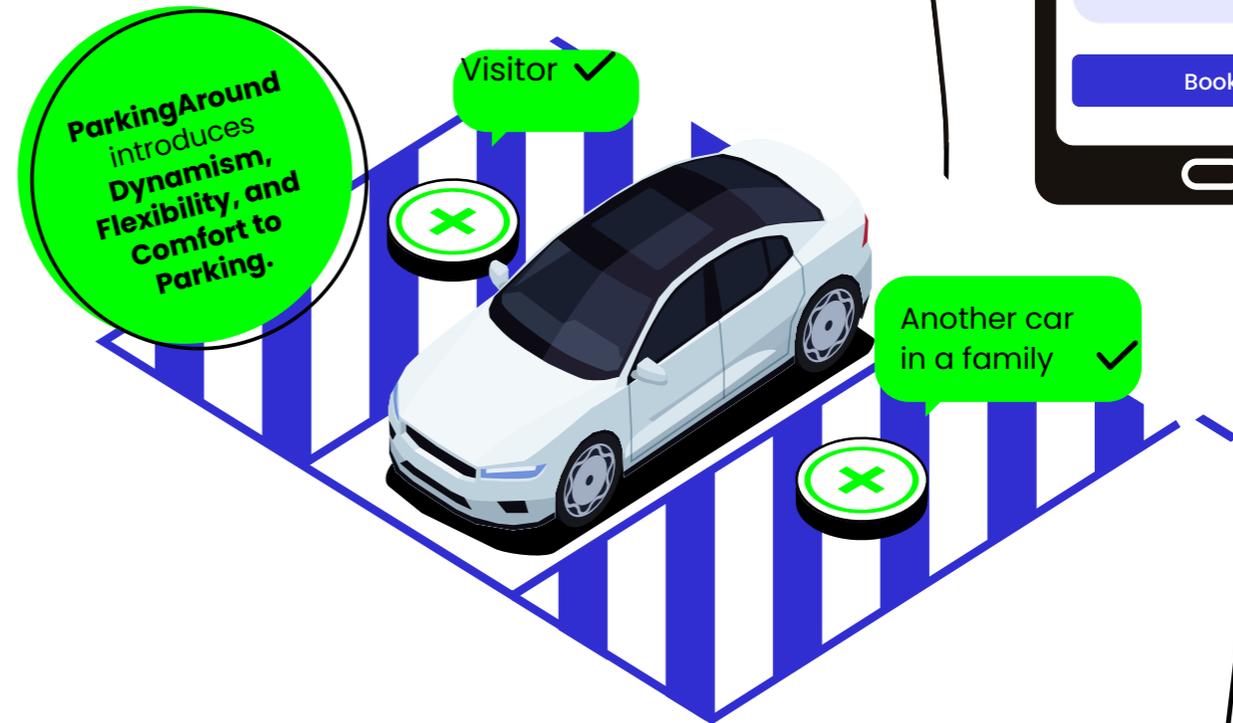

## Comfort

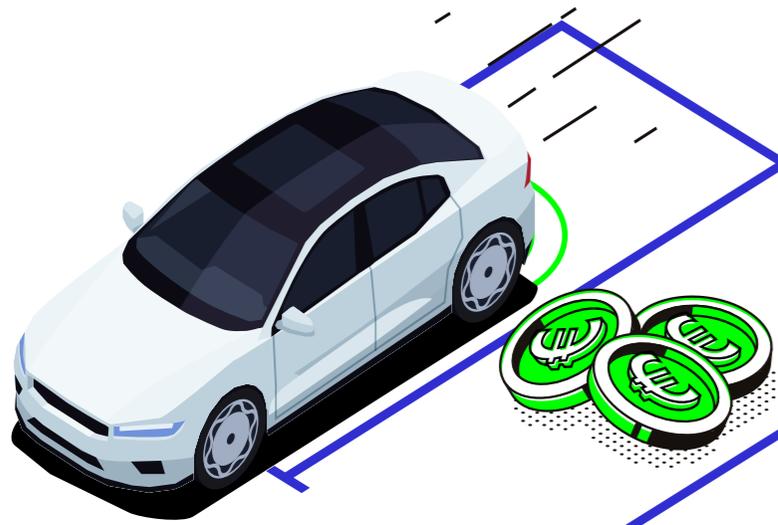

Enjoy automatic gate openings for you and your guest

On top of being able to extend all these benefits to your neighbors, **a reduction in parking search time means an increase in air quality.**

# Adjust the number of spaces at your disposal based on your current needs

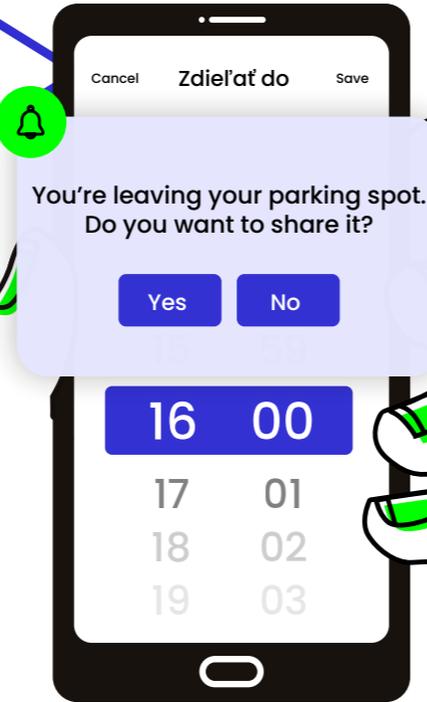

Flexibility means opportunity. Reserve spots from neighbors or share your own. Turn your spot into an idle earner when your car is elsewhere.

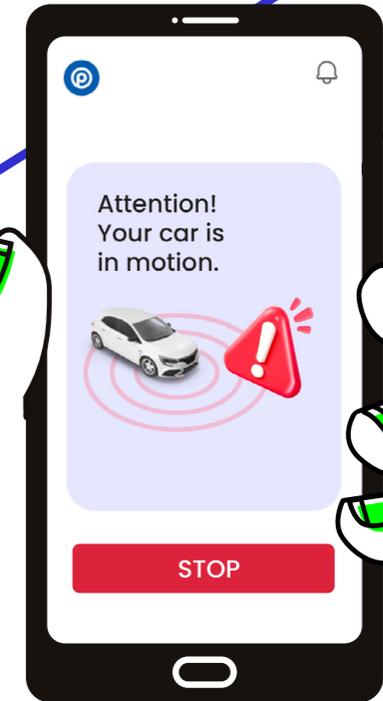

## Rent out unused parking spaces

Make the most of time spent at work or on vacation. Renting out your empty space helps other drivers while earning you money.

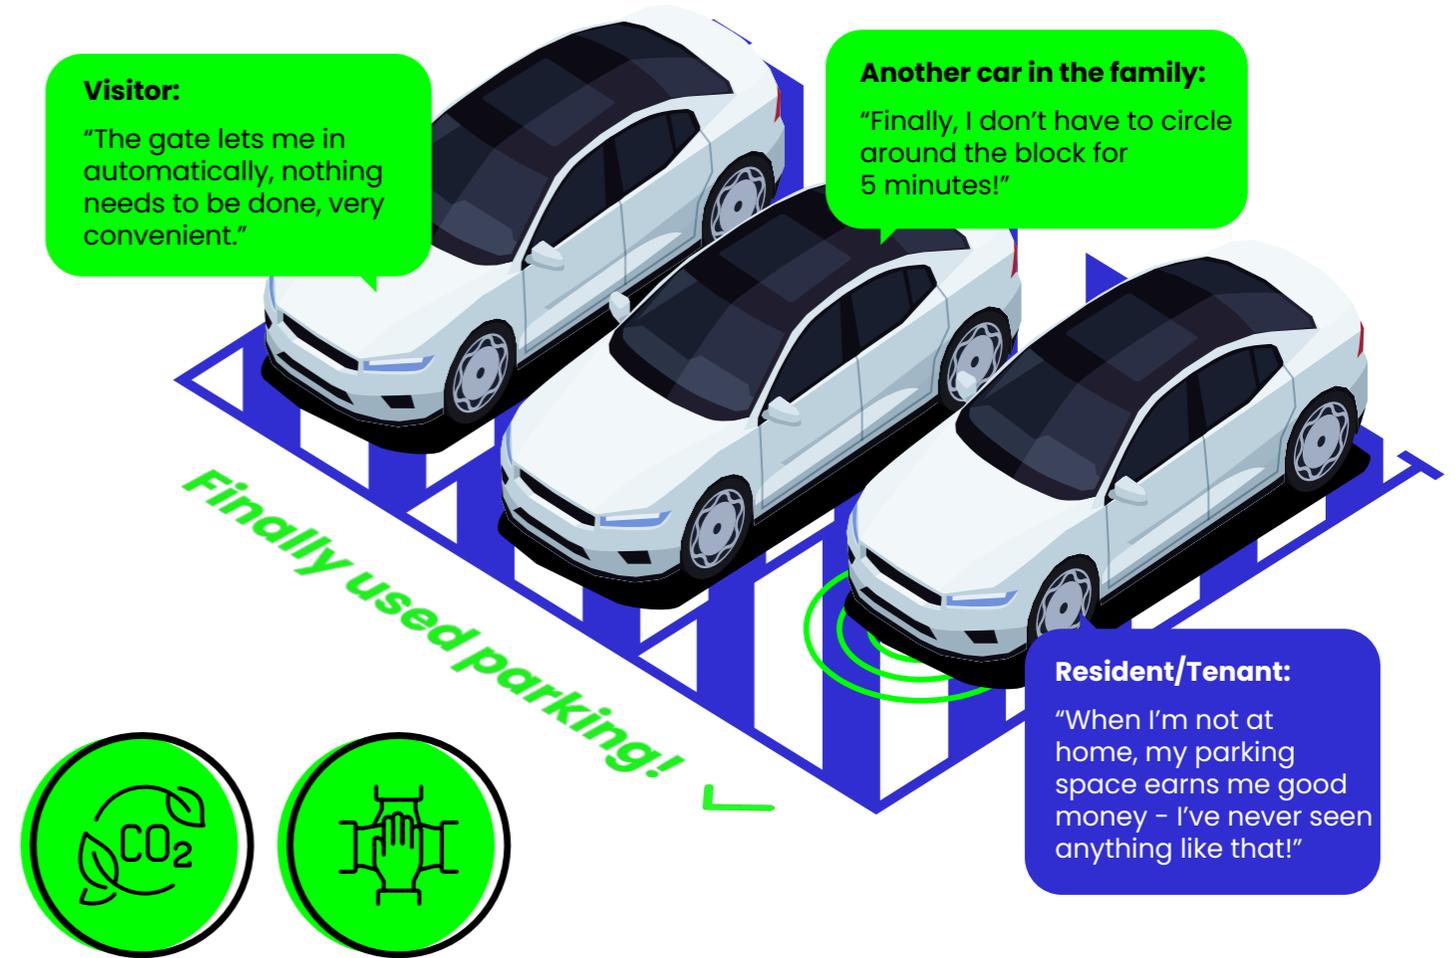

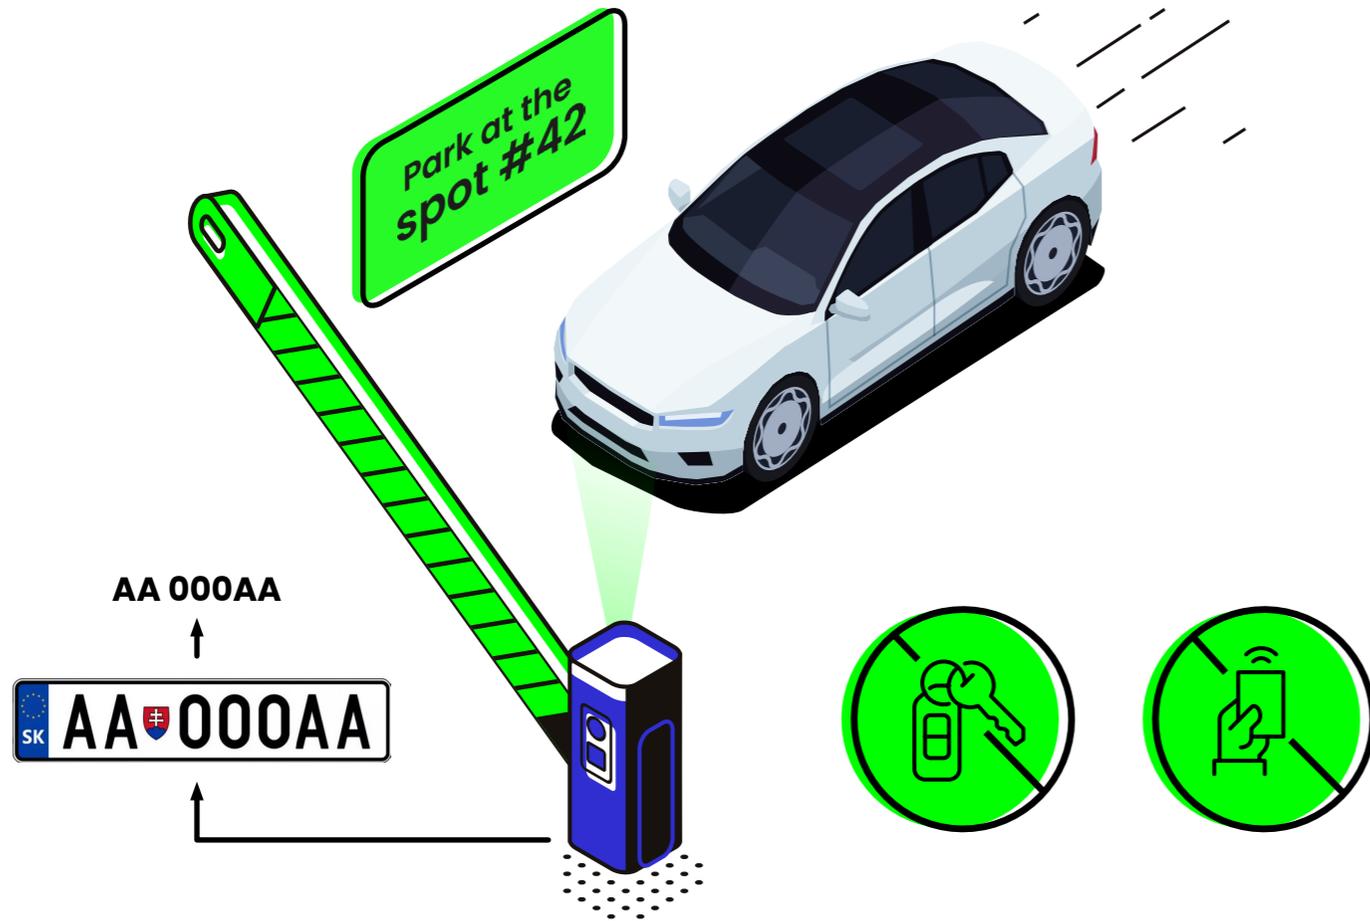

## Your space. Your car. Constant protection

Keep track of what is happening in your parking space anytime, anywhere! A wireless sensor detects and reports any abnormal behavior. Additionally, with ParkingAround, you receive real-time alerts about any movement in your parking space, including accidental movement of your car.

# Say goodbye to parking cards and remotes.

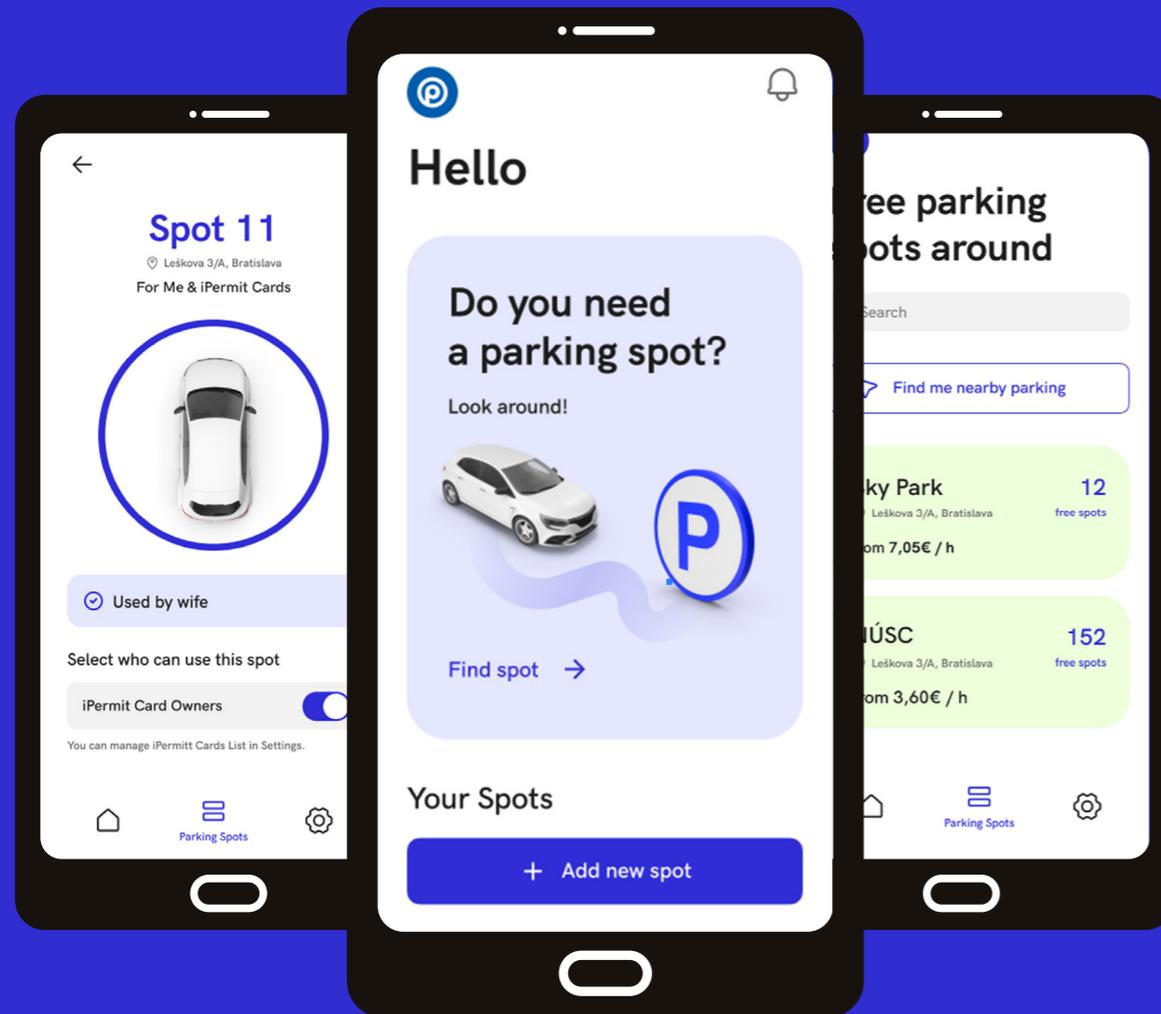

Enjoy the comfort of automatic gate opening from anywhere! Thanks to ParkingAround and automatic license plate recognition, you can open the gate remotely no matter where you are, creating convenience for you and your visitors.

## Support ecology and community

Reduce emissions and share parking spaces among yourselves. Did you know that up to 40% of parking spaces in residential areas remain empty at night? Meanwhile, your neighbors are circling the streets looking for a parking space. That's why ParkingAround is here!
